

Document Processing

Negotiating and managing routine contracts can pull your team's focus away from core work, which can slow down business processes and lead to missed opportunities and lost revenue. **Document Processing** is a purpose-built, full-service solution for negotiating and managing routine contracts that uses a combination of data-driven technology and a distributed network of expert lawyers.

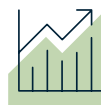

Free yourself from routine legal work:

Free up resources
by outsourcing entire document processes and empowering compliance.

Reduce turnaround times with fast, experienced lawyers leveraging top-tier technology.

Unlock data-driven insights across all your contracts to inform negotiations and improve results.

Lower your legal costs with fixed fees that are a fraction of those charged by a traditional law firm.

By the Numbers

400K+ contracts processed

500+ customers

98% customer retention

We're experts in:

Confidentiality Agreements
Joinders
Engagement Letters

Non-Reliance Letters
Vendor Contracts

The complete solution for negotiating and managing routine contracts

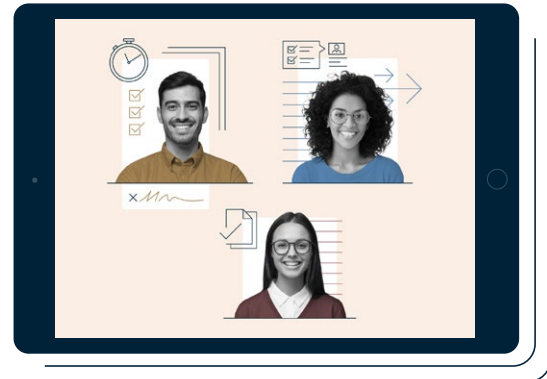

1. Team of experts

Our experienced lawyers and Account Managers ensure that you receive the best service possible.

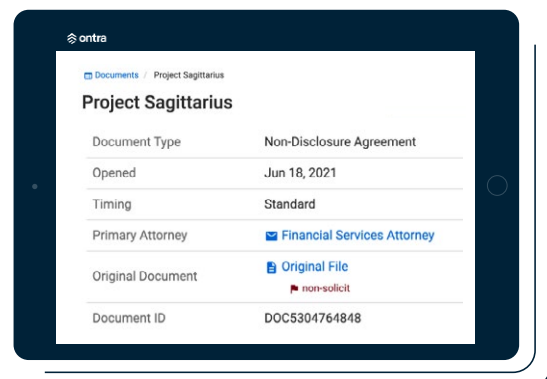

3. Enhanced by AI

Machine learning tools and human-in-the-loop training boost process efficiencies and data accuracy.

2. Dashboards and reporting

Our document, workflow, and data management tools empower your team to work better, faster, and smarter.
